Jl Batu Giok 2 No 78 Bojong Rawalumbu Kota Bekasi

I am a Software Engineer specializing in Frontend Development with approximately 2 years of experience building modern, responsive web applications using React, Vue, and Nuxt. I have strong expertise in implementing UI/UX designs using Tailwind CSS and Bootstrap, managing state, and integrating RESTful APIs to create seamless and performant user experiences. I am passionate about writing clean, maintainable code and continuously improving frontend performance, accessibility, and scalability.

Work Experiences

Airnav Indonesia - Tangerang City, Banten   Oct 2025 - Present
Front End Developer Intern

- Developed two internal web applications, NavEvent and Arsipku, using React and Nuxt
- Ensured optimal performance, usability, and cross-browser compatibility
- Participated in team discussions, code reviews, and sprint planning to ensure project alignment

Ijendev.id - Banyuwangi, East Java   Mar 2025 - Aug 2025
